Quick Start Guide

Huawei B315, B618, B525

WHAT'S IN THE BOX

- 1 LTE Router
- 2 SIM Card
- 3 Power Cable
- 4 Yellow Ethernet "LAN" Cable

LET'S GET YOU CONNECTED

1 Open your SIM card

- Take your SIM card out of its packaging.
- Pop the SIM out of the card.
- Pop the Micro SIM out of the full sized SIM card.
- The nano SIM must stay inside the Micro SIM to keep it at its "medium" size.

3 Plug in your Router

- Connect your power supply to the router and plug it into your wall socket.
- The router's indicator light will turn blue when your router has connected to the internet.
- This can take anywhere from a few minutes to two business days upon first activation

What the indicator lights mean:

-  **Red light**
- Not Connected to Network.
-  **Green light**
- Searching for Network
-  **Blue Light**
- Connected to Network

2 Insert the SIM Into your router

- Turn your Router upside down and remove the cover that says "SIM".
- Insert your Micro SIM into the SIM slot (push it in until it clicks).
- Replace the slot cover.

4 Connect to your Wifi

- Turn your Router upside down to find your SSID (your router's name) and Wi-Fi key (the password).

SSID:
 SSID-5G:
 Wi-Fi KEY:

DID YOU KNOW

Webafrika Routers are recycled!

As part of our effort to "reduce, reuse, recycle" we recycle our pre-owned routers. Your router may have belonged to someone else before you. Rest assured that it has been cleaned, checked, and restored to "good as new" status. If you experience any issues with your router please let us know soonest so that we can assess and replace if required. We fully insure your free-to-use router, so in the event of accidental damage or theft, we will replace it.

LET'S GET PERSONAL

How to change your Wifi name and password.

- 1 Once connected, open your internet browser. Type the following into the address bar: 192.168.8.1
- 2 The Huawei control panel should open up in your browser.
- 3 Log in with the following username and password.

Username: [admin](#)
Login Password: [admin](#)

← → 192.168.8.1 🔍 ↻ ✕

User Name

Password

Login

Step 1 of 3

The 'Update Configuration' page will open automatically

HUAWEI Settings Quick Setup Update Configuration Step 1 of 3

Auto-update in idle period (from 3 am to 5 am)

Next

We recommend ticking the box which says "auto-update in idle period 3-5 am" as this will ensure that any system updates are made using your Night Surfer Data.

Click "Next"

Step 2 of 3

You will be prompted to configure your WLAN settings.

HUAWEI Settings Quick Setup Configure WLAN Settings Step 2 of 3

Name SSID (Service Set Identifier): Enter a character string, of up to 32 characters in length, as the name for your wireless local area network (WLAN).

SSID:

WLAN key: Show password

Back Next

- This is where you can get creative and set your Wifi's username and password.
- The **SSID** is your username and the **WLAN** key is your password.
- When you are happy with your new username and password (and you have written them down for safe keeping) click "Next".

Step 3 of 3

The Modify Password Page will open.

HUAWEI Settings Quick Setup Modify Password Step 3 of 3

Changing your login password frequently can prevent unauthorized users from modifying your router's configurations.

Same as Wi-Fi password

Back Finish

If you choose to tick the "**Same as Wifi password**" box, it will make your password for this control panel the same as your Wifi password.

If you don't tick it, it will remain "**admin / admin**".

Click "**Finished**".

That's it! You're done! You can now connect your devices using your newly set up Wifi name and password.
