

HOW TO SET UP YOUR VOIP

Setting up VoIP on your Smartphone

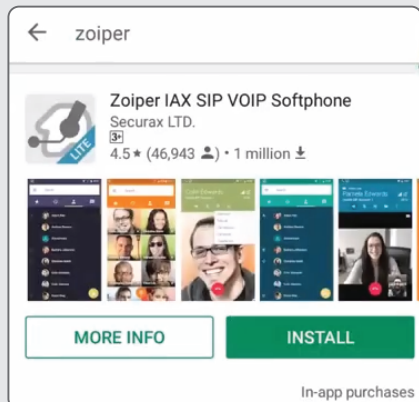

You will need the following details:

- 1 **Account type** - it can be SIP or IAX
- 2 **Hostname**, eg: talk.webafrica.co.za
- 3 The **default SIP** port is 5060.
- 4 **Username** – this is the username for your account. (the VoIP number)
- 5 **Password** – this is the password for your account.

You will find all of the above details in your customer zone.

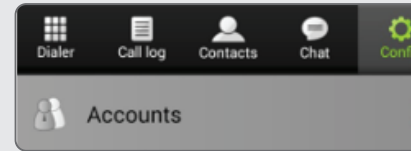

Go to : *My Services >> Voice >> Account Details >> My Voice Phone >> Account Settings.*

Download and install the Zoiper or Gwave application on your smartphone:

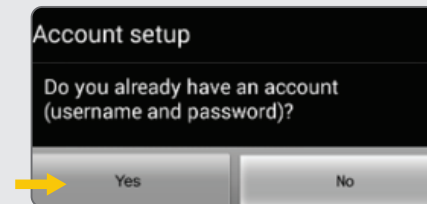

CONFIGURING YOUR ACCOUNT:

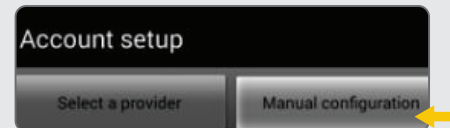

Start Zoiper for Android, click "**Config**", select "**Accounts**" and then "**Add account**"

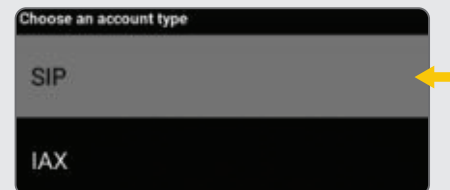

When you see the question "Do you already have an account?" select "**Yes**"

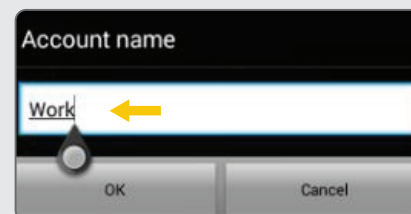

Click "**Manual Configuration**".

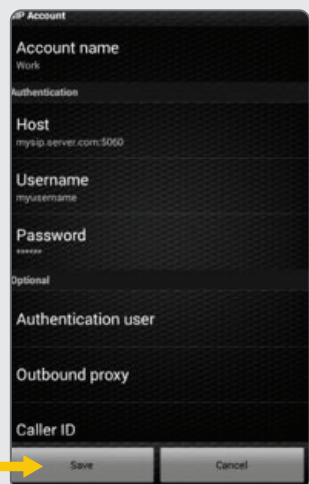

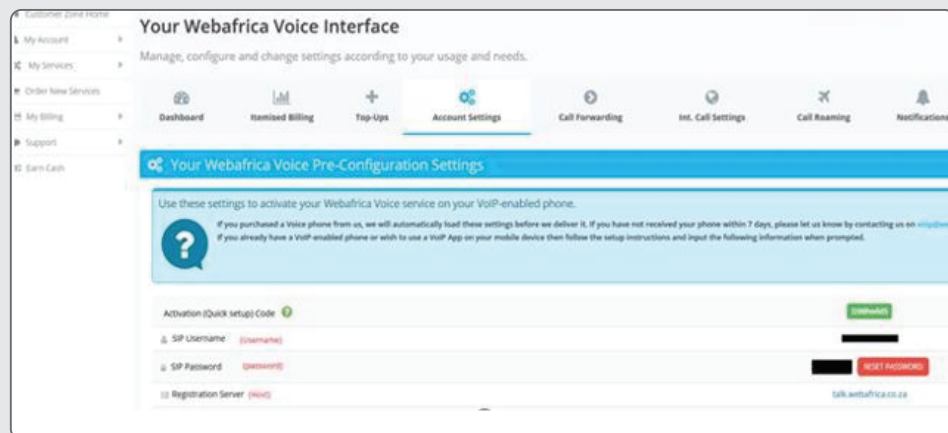

Select **SIP**

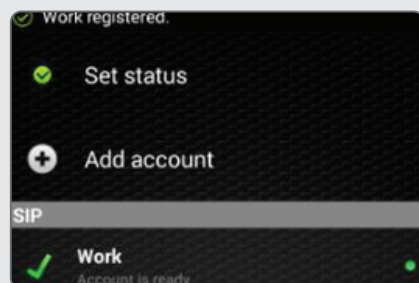

First you need to enter a name for your new account in the "**Account name**" field. Enter any name that will help you to recognize the account.

Then fill in the account details in the appropriate fields found in your Customer Zone:

Click "**Save**". Now you will see a list with all your accounts, including the one you just created. In about 30 seconds a green checkbox will appear in front of the account name.

YOU ARE READY TO MAKE CALLS!
